

# Technical Team Selection Tasks

## About This Selection

We're looking for curious, execution-focused beginners who enjoy building things. These tasks will help us evaluate your basic coding skills, logical thinking, and ability to complete small real-world problems independently. There are no perfect answers—we want to see how you think and build.

## Complete Any 1 Task

### Task 1: Build a Simple Web Page

Create a simple HTML page for the "DevCatalyst Tech Workshop".

#### Requirements:

- Include a title, heading, 1 paragraph, and 1 image
- Add a basic registration form (Name + Email)
- Keep the layout clean and readable

### Task 2: Vibe Coded App

Build a simple app using any free vibecoding tool available online.

#### Reference Links:

- Vibe Coding Tutorial 1 (Under 5 Minutes): [Tutorial 1](#)
- Vibe Coding Tutorial 2 (Under 5 Minutes): [Tutorial 2](#)

## **Submission Instructions**

- If you know how to deploy, share the live link of your app (optional)
- Submit your work as a single MP4 file or screen recording of your landing page/vibe coded app
- Name your file: RollNumber\_TechnicalTeam\_Task.mp4  
Eg: 1608-25-733-020\_TechnicalTeam\_Task.pdf
- Upload it to the Google Drive link provided: [Drive Link](#)
- Include your Roll Number at the top of your PDF

**Deadline:** 27th Feb, 2026 | 9 AM

**Good luck! We're excited to see what you build.**
